Dated: 03.11.2010

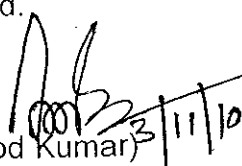

To,

All CMTS/ UAS Licensees

Subject: Clarification on implementation of radiation norms on EMF exposure by Base Transceiver Stations (BTSs).

This is with reference to representations received from Service Providers / Associations seeking clarifications on above mentioned subject. In this regard, it is clarified that each method of compliance given in Clause-2 of the Supplement on Test Procedure for Measurement of EMF from Base Transceiver Station Antenna, Issue-2, August 2010, has its own merit. The service provider has to choose the method most suitable to him as per the site requirement. The photograph of site clearly provides the status of neighbouring buildings to the site, as on date. Therefore, the site photograph requirement cannot be dispensed with.

It is reiterated that the Self Certification for all sites has to be submitted as per existing instructions by 15.11.2010 to the respective TERM Cells. Any site for which Self Certificate is not submitted shall be treated as non-compliant to the EMF radiation norms and penalty as prescribed shall be imposed.

(Vinod Kumar)
Director (AS-II)
