26. The Plaintiffs have filed the present Suit seeking a permanent injunction to restrain infringement of their broadcast reproduction rights by Defendant Nos. 1 to 9 and other unknown parties.

27. The learned Counsel for the Plaintiffs sets up the plaintiff's case as follows:

27.1. The Plaintiff No. 1, DAZN Limited, is a global sports streaming and entertainment platform that offers live and on-demand/over-the-top (OTT) sports broadcasting in over 200 countries. The Plaintiff No. 1 is also an exclusive right owner for several works broadcast on its platform.

27.2. Plaintiff No. 2, DAZN Software Private Limited is the Indian subsidiary of Plaintiff No.1, overseeing operations in India as well as technological developments.

27.3. Plaintiff No. 1 owns and operates the online streaming platform/website <https://dazngroup.com> and <https://www.dazn.com/en-IN/home> ("DAZN") and mobile application which enables its viewers to watch sporting content including live streaming of sporting events etc.

27.4. It is stated that the subject matter of the present suit pertains to the matches of the ongoing event i.e., Serie A Championship, which was commenced on 23.08.2025 and is scheduled to conclude 24.05.2026. The

said event is the 124<sup>th</sup> season of top-tier Italian football, the 94<sup>th</sup> in a round-robin tournament, and the 16<sup>th</sup> since its organization under an own league committee.

27.5. The Plaintiffs have acquired exclusive global media rights, comprising television rights to be exercised via broadcast delivery systems, digital rights to be exercised via digital delivery systems, including internet and mobile technology, and certain ancillary rights (“Exclusive Rights”) in respect of the ongoing event ‘Serie A Championship’ (“Event”). In exercise of the exclusive rights in the Event granted by one Lega Calcio Serie A (“LCA”) which is the owner of the Exclusive Rights, the Plaintiffs have acquired the Exclusive Rights to be exercised via Plaintiff No. 2 in India.

**Overview of the Defendants:**

27.6. Defendant nos. 1 to 9 are the IPTV Service Providers operating through their respective websites and associated domains.

27.7. Defendant Nos. 10 to 19 are Domain Name Registrars (“DNRs”) arrayed for the purpose of blocking access to domains used by the Defendant Nos. 1 to 9 and to disclose information such as Name, Address, Email address, Mobile Number, payment details, etc. (‘BSI’) related to the Registrants of Defendant Nos. 1 to 9.

27.8. Defendant no 20/ WhatsApp and 21/Telegram FZ-LLC are impleaded to seek direction to block/delete the groups or accounts made on their platforms, which are used by the infringing Defendants to communicate with the users for registering them.

27.9. Defendant Nos. 22 - 26 are payment processors utilized by Defendant Nos. 1-9 and their associated domains.

27.10. Defendant nos. 27 to 35 are Internet Service Providers (“ISPs”),

engaged in the business of providing internet and telecommunication services to the public in India and are the gateways which enable access of such rogue Defendant Nos. 1-9 and their associated domains through internet into India.

27.11. Defendant No. 36/Department of Telecommunications ('DoT') and Defendant No. 37/Ministry of Electronics and Information Technology ('MeitY'), are impleaded to assist in enforcing/ensuring compliance with any orders of Court.

27.12. Defendant no. 38 is an unknown identity that has been impleaded as John Doe.

#### **Overview of Infringement**

27.13. The Defendant Nos. 1 to 9 under their IPTV services are communicating, hosting, streaming, and making available to the public live sporting events without authorisation from lawful rights holders ("Impugned Services") using IPTV Players without any authorisation. The Defendant Nos. 1-9 offer their IPTV services through their respective websites. To access the infringing content via the IPTV Player, Defendant Nos. 1-9 provide their customers with (a) a username, (b) a password, and (c) a URL on the medium of WhatsApp and Telegram upon payment of substantial subscription fees through payment channels of Defendant Nos. 22 to 26. The option to communicate through WhatsApp and Telegram are available on the respective websites. A screenshot of the WhatsApp exchange between the investigator and Defendant Nos. 1 to 9, wherein subscription details were requested, is annexed as Document 11 filed along with the plaint.

27.14. The offering of Impugned Services of the infringing defendants is not geo-restricted and freely accessible to users across India, including in Delhi as evidenced from the affidavit of the investigator<sup>2</sup>.

27.15. The Plaintiffs, as rightsholders and exclusive licensees of the ‘original works’ as well as ‘broadcasts’, enjoy protection under Section 37 of the Copyright Act, 1957 (“Act”). Therefore, the making available and/or communication to the public of the content in which the Plaintiffs have the Exclusive Rights, without the Plaintiffs’ authorisation by the Defendant Nos. 1 – 9 or any other unknown websites/ domains/ UIs/ URLs would amount to a violation of the Plaintiffs’ exclusive rights. The alleged reproduction/communication is contemporaneous and has a potential to erode the Plaintiffs’ market, a considerable compensation for which has been paid by the Plaintiffs.

27.16. The Plaintiffs have also issued email notices to Defendants No. 1 to 9 informing them of the infringing domains hosted or facilitated through their services and requesting that they investigate the matter and take appropriate action. Despite these clear and specific notifications, no remedial action has been taken to date thereby showing that these are rogue defendants on the principles identified by the Court in **UTV Software Communication v 1337x.To**<sup>3</sup>.

27.17. It is further submitted that during the live transmission of major sporting events, including the aforesaid event, the Plaintiffs have observed that the infringing Defendants frequently re-emerge by creating multiple associated domains and mirror websites mere minutes before the

---

<sup>2</sup> Annexed as Document no.9 along with the plaint.

<sup>3</sup> 2019 SCC OnLine Del 8002

commencement of the match. Moreover, each time an infringing website, URL, or domain is blocked, new websites and associated domains are promptly generated to continue the unlawful activity. In view of these peculiar circumstances and the Defendants' persistent evasive conduct, the grant of a Dynamic Injunction to safeguard the Plaintiffs exclusive rights is warranted.

27.18. Learned counsel for the Plaintiff has also placed reliance on the judgment passed in its favour by the Coordinate Bench of this Court in CS(COMM) 1152/2025 dated 06.11.2025, suit titled as **DAZN Limited & Anr. vs 9GOALS.IO & Ors.**, granted in favour of the Plaintiff for the same Event with respect to rogue websites.

**Court's Findings:**

28. The Court has heard the learned counsel for the plaintiff and has perused the case.

29. Learned counsel for the Plaintiff states that an advance service has been affected on the defendants. However, none appears for the defendants except Defendant No. 21.

30. After considering the submissions of learned counsel for the Plaintiffs, as well as the pleadings and documents on record, the Court is satisfied that the Plaintiffs have made out a prima facie case for an ex parte ad-interim injunction.

31. The Plaintiffs have acquired exclusive rights for multiple events, including the Event mentioned in the Rights Confirmation Letter dated 10.10.2025, through substantial financial investment.

32. The Defendant Nos. 1 to 9's failure to reply to the Plaintiffs' email notices and their non-appearance despite due service of the suit paper book

further militates against them and reflects a lack of due diligence and good faith.

33. The apprehension of the unauthorised dissemination, telecasting, or broadcasting of the Event by IPTV Service Providers is substantiated by the report of the investigator placed on record. This Courts finds merit in the submissions of the plaintiff that any delay in blocking access to Defendant Nos. 1 - 9 or any other IPTV Service Providers/ websites/ domains providing the Impugned Services, could lead to financial losses for the Plaintiffs, and an irreparable breach of the Exclusive Rights.

34. In respect of the prayer of the Plaintiff for a dynamic injunction during the subsistence of the series/Event, this Court notes that the Courts have recognised that due to the dynamic and continuously evolving nature of the digital ecosystem, legal remedies must remain sufficiently robust and effective to curb copyright infringement, particularly in the fast-paced and ever-changing environment of the internet. The Court, in **Universal City Studios (supra)**, has elaborated on this principle, the relevant paragraph of which is reproduced below:

“17. Any injunction granted by a Court of law ought to be effective in nature. The injunction ought to also not merely extend to content which is past content created prior to the filing of the suit but also to content which may be generated on a day-to-day basis by the Plaintiffs. In a usual case for copyright infringement, the Court firstly identifies the work, determines the Copyright of the Plaintiff in the said work, and thereafter grants an injunction. However, owing to the nature of the illegalities that rogue websites indulge in, there is a need to pass injunctions which are also dynamic qua the Plaintiffs as well, as it is seen that upon any film or series being released, they may be immediately uploaded on the rogue websites, causing severe and instant monetary loss. Copyright in future works comes into existence immediately upon the work being created, and Plaintiffs may not be able to approach the Court for each and every film or series that is produced in the future, to secure an injunction against piracy.”

19. As innovation in technology continues, remedies to be granted also ought to be calibrated by Courts. This is not to say that in every case, an injunction qua future works can be granted. Such grant of an injunction would depend on the fact situation that arises and is placed before the Court.

20. In the facts and circumstances as set out above, an ex parte ad interim injunction is granted restraining the Defendants, who are all rogue websites, from in any manner streaming, reproducing, distributing, making available to the public and/or communicating to the public any copyrighted content of the Plaintiffs including future works of the Plaintiffs, in which ownership of copyright is undisputed, through their websites identified in the suit or any mirror/redirect websites or alphanumeric variations thereof including those websites which are associated with the Defendants' websites either based on the name, branding, identity or even source of content. To keep pace with the dynamic nature of the infringement that is undertaken by hydra-headed websites, this Court has deemed it appropriate to issue this 'Dynamic+ injunction' to protect copyrighted works as soon as they are created, to ensure that no irreparable loss is caused to the authors and owners of copyrighted works, as there is an imminent possibility of works being uploaded on rogue websites or their newer versions immediately upon the films/shows/series etc. The Plaintiffs are permitted to implead any mirror/redirect/alpha numeric variations of the websites identified in the suit as Defendants Nos.1 to 16 including those websites which are associated with the Defendants Nos.1 to 16, either based on the name, branding, identity or even source of content, by filing an application for impleadment under Order I Rule 10 CPC in the event such websites merely provide new means of accessing the same primary infringing websites that have been enjoined. The Plaintiffs are at liberty to also file an appropriate application seeking protection qua their copyrighted works, including future works, if the need so arises. Upon filing such applications before the Registrar along with an affidavit with sufficient supporting evidence seeking extension of the injunction to such websites, to protect the content of the Plaintiffs, including future works, the injunction shall become operational against the said websites and qua such works. If there is any work in respect of which there is any dispute as to ownership of copyright, an application may be moved by the affected party before the Court, to seek clarification.”

(Emphasis Supplied)

35. In view of the findings recorded above, grounds for immediate injunctive relief as well as dynamic injunction is made out in this case, considering the live broadcast of the Event.

36. Accordingly, till the next date of hearing the following directions are issued:

Defendant Nos. 1- 9, their owners, partners, proprietors, officers, and all others in capacity of principal or agent acting for and on their behalf, or anyone claiming through, by or under them are restrained from in any manner hosting, streaming, broadcasting, making available for viewing/downloading, communicating, and / or sharing without authorization, any part of the Event i.e., 'Serie A Championship' in any manner whatsoever so as to infringe the Plaintiffs' Exclusive Rights.

If any website, which is not primarily an infringing website, is blocked in pursuance of this Order, it is permitted to approach the Court by giving an undertaking that it does not intend to do any illegal dissemination of the content over which the Plaintiffs have Exclusive Rights and the Court would consider modifying the injunction if the facts and circumstances, so warrant.

## **Annexure**

Subject: Action requested to be taken by MEITY and Plaintiff for effective removal of content for viewing by public at large within India as per the said orders of Hon'ble Court.

It is observed that a number of orders of Hon'ble Court are issued for blocking of websites every month. There are around more than 2700 ISPs in India and these ISPs are connected among themselves in a mesh network. DOT is instructing each of the ISPs through emails/through its website for blocking of the websites as ordered by the Hon'ble Courts. Ensuring compliance of the orders by each of the ISPs is a time-consuming and complex task especially in view of multiplicity of orders of Hon'ble Courts, multiplicity of websites to be blocked and multiplicity of ISPs.

2. Allocation of Business Rules inter-alia states thus:-

*'Policy matters relating to information technology; Electronics; and Internet (all matters other than licensing of Internet Service Provider).'*

3. In view of above and in order to ensure effective removal by content for viewing by public at large, the plaintiff is requested to do a trace route of the web server hosting the said website. In case the web server happens to be in India, the plaintiff may inform the same to Meity who may direct the owner of such web server to stop transmission of content as per IT Act and as directed by the Hon'ble Court so that the content would be blocked from the source itself and the exercise of blocking by 2700 ISPs would not be required.

4. In case such server is located abroad i.e. outside India then access to such URL/website can be blocked through the international internet gateways which are much less in number. This would result in timely and effectively removal of undesirable content for viewing by public at large as is the requirement as per the orders of Hon'ble Court.
