- b. the flagrancy of the infringement, or the flagrancy of the facilitation of the infringement;
- c. whether the detail of the registrant is masked and no personal or traceable detail is available either of the Registrant or of the user.
- d. whether there is silence or inaction by such website after receipt of take down notices pertaining to copyright infringement.
- e. whether the online location makes available or contains directories, indexes or categories of the means to infringe, or facilitate an infringement of copyright;
- f. whether the owner or operator of the online location demonstrates a disregard for copyright generally;
- g. whether access to the online location has been disabled by orders from any court of another country or territory on the ground of or related to copyright infringement;
- h. whether the website contains guides or instructions to circumvent measures, or any order of any court, that disables access to the website on the ground of or related to copyright infringement; and
- i. the volume of traffic at or frequency of access to the website;
- j. Any other relevant matter.

60. This Court clarifies that the aforementioned factors are illustrative and not exhaustive and do not apply to intermediaries as

they are governed by IT Act, having statutory immunity and function in a wholly different manner.”

Annexure

Subject: Action requested to be taken by MEITY and Plaintiff for effective removal of content for viewing by public at large within India as per the said orders of Hon'ble Court.

It is observed that a number of orders of Hon'ble Court are issued for blocking of websites every month. There are around more than 2700 ISPs in India and these ISPs are connected among themselves in a mesh network. DOT is instructing each of the ISPs through emails/through its website for blocking of the websites as ordered by the Hon'ble Courts. Ensuring compliance of the orders by each of the ISPs is a time-consuming and complex task especially in view of multiplicity of orders of Hon'ble Courts, multiplicity of websites to be blocked and multiplicity of ISPs.

2. Allocation of Business Rules inter-alia states thus:-

'Policy matters relating to information technology; Electronics; and Internet (all matters other than licensing of Internet Service Provider).'

3. In view of above and in order to ensure effective removal by content for viewing by public at large, the plaintiff is requested to do a trace route of the web server hosting the said website. In case the web server happens to be in India, the plaintiff may inform the same to Meity who may direct the owner of such web server to stop transmission of content as per IT Act and as directed by the Hon'ble Court so that the content would be blocked from the source itself and the exercise of blocking by 2700 ISPs would not be required.

4. In case such server is located abroad i.e. outside India then access to such URL/website can be blocked through the international internet gateways which are much less in number. This would result in timely and effectively removal of undesirable content for viewing by public at large as is the requirement as per the orders of Hon'ble Court.
