Note: HSN Code 85171210 has been bifurcated into two new codes, i.e., 85171211 & 85171219 starting from 2020-21. Post 2019-20, HSN Code 85171210 has ceased to exist and 85171211 & 85171219 are being used from 2020-21 onward.

Remark: Instead of 64 HSN codes, 68 HSN codes have been used, compared to earlier report, explained as under:

i. HSN code 85177990 and 85177910 include imports of Parts and PCBA pertaining to both Mobile Phones and Telecom items, hence these codes are monitored by DoT and MeitY. Accordingly, to get a complete picture of trade, HSN codes related to Smart phones viz 85171300 and 85171400 are also included in the report albeit Smart phones come under the domain of MeitY, therefore, corresponding finished product, i.e. Smartphone has also been added in the list.

ii. 85171100 (aerial reflectors) (Newly created out of earlier code 85177090)

iii. 85198100 (transcribing machine) (Newly created)

Note: HSN Code 85171210 has been bifurcated into two new codes, i.e., 85171211 & 85171219 starting from 2020-21. Post 2019-20, HSN Code 85171210 has ceased to exist and 85171211 & 85171219 are being used from 2020-21 onward.

Remark: Instead of 64 HSN codes, 68 HSN codes have been used, compared to earlier report, explained as under:

- HSN code 85177990 and 85177910 include imports of Parts and PCBA pertaining to both Mobile Phones and Telecom items, hence these codes are monitored by DoT and MeitY. Accordingly, to get a complete picture of trade, HSN codes related to Smart phones viz 85171300 and 85171400 are also included in the report albeit Smart phones come under the domain of MeitY, therefore, corresponding finished product, i.e. Smartphone has also been added in the list.
- 85177100 (aerial reflectors) (Newly Created out of earlier code 85177090)
- 85198100 (transcribing machine) (Newly created)

Note: HSN Code 85171210 has been bifurcated into two new codes, i.e., 85171211 & 85171219 starting from 2020-21. Post 2019-20, HSN Code 85171210 has ceased to exist and 85171211 & 85171219 are being used from 2020-21 onward. Remark: Instead of 64 HSN codes, 68 HSN codes have been used, compared to earlier report, explained as under:
i. HSN code 85177990 and 85177910 include imports of Parts and PCBA pertaining to both Mobile Phones and Telecom items, hence these codes are monitored by DoT and MeitY. Accordingly, to get a complete picture of trade, HSN codes related to Smart phones viz 85171300 and 85171400 are also included in the report albeit Smart phones come under the domain of MeitY, therefore, corresponding finished product, ie. Smartphone has also been added in the list.
ii. 85177100 (aerial reflectors) (Newly Created out of earlier code 85177090)
iii. 85198100 (transcribing machine) (Newly created)

Note: HSN Code 85171210 has been bifurcated into two new codes, i.e., 85171211 & 85171219 starting from 2020-21. Post 2019-20, HSN Code 85171210 has ceased to exist and 85171211 & 85171219 are being used from 2020-21 onward.

Remark: Instead of 64 HSN codes, 68 HSN codes have been used, compared to earlier report, explained as under:

i. HSN code 85177990 and 85177910 include imports of Parts and PCBA pertaining to both Mobile Phones and Telecom items, hence these codes are monitored by DoT and MeitY. Accordingly, to get a complete picture of trade, HSN codes related to Smart phones viz. 85171300 and 85171400 are also included in the report albeit Smart phones come under the domain of MeitY, therefore, corresponding finished product, i.e. Smartphone has also been added in the list.

ii. 85171100 (aerial reflectors) (Newly Created out of earlier code 85177090)

iii. 85198100 (transcribing machine) (Newly created)

Table 11.13 - Indicator Definition

Indicator Name	Indicator Description	Indicator Definition
i112	Fixed-telephone subscriptions	Fixed-telephone subscriptions refers to the sum of active number of analogue fixed telephone lines, voice-over-IP (VoIP) subscriptions, fixed wireless local loop (WLL) subscriptions, ISDN voice channel equivalents and fixed public payphones.
i271	Mobile-Cellular telephone subscriptions	Mobile-cellular telephone subscriptions refers to the number of subscriptions to a public mobile-telephone service that provide access to the PSTN using cellular technology. The indicator includes the number of post-paid subscriptions, and the number of active prepaid accounts (i.e. that have been used during the last three months). The indicator applies to all mobile-cellular subscriptions that offer voice communications. It excludes subscriptions via data cards or USB modems, subscriptions to public mobile data services, private trunked mobile radio, telepoint, radio paging, M2M and telemetry services.
i4213tfbb	Fixed broadband subscriptions	Fixed-broadband subscriptions refers to fixed subscriptions to high-speed access to the public Internet (a TCP/IP connection), at downstream speeds equal to, or greater than, 256 kbit/s. This includes cable modem, DSL, fibre-to-the-home/building, other fixed (wired)-broadband subscriptions, satellite broadband and terrestrial fixed wireless broadband. This total is measured irrespective of the method of payment. It excludes subscriptions that have access to data communications (including the Internet) via mobile-cellular networks. It should include fixed WiMAX and any other fixed wireless technologies. It includes both residential subscriptions and subscriptions for organizations.
i271mw	Active-mobile broadband subscriptions	Active mobile-broadband subscriptions refers to the sum of active handset-based and computer-based (USB/dongles) mobile-broadband subscriptions to the public Internet. It covers actual subscribers, not potential subscribers, even though the latter may have broadband enabled handsets. Subscriptions must include a recurring subscription fee or pass a usage requirement – users must have accessed the Internet in the last three months. It includes subscriptions to mobile broadband networks that provide download speeds of at least 256 kbit/s (e.g. WCDMA, HSPA, CDMA2000 1x EV-DO, WiMAX IEEE 802.16e and LTE), and excludes subscriptions that only have access to GPRS, EDGE and CDMA 1xRTT.
